

CANNABIS APPLIED STUDIES, BASIC CERTIFICATE

College(s): OH, WR

Program Code: 0463

The Basic Certificate (BC) in Applied Cannabis Studies purpose is to prepare individuals for a range of entry into the cannabis industry, from entry to mid-level employment opportunities. Individuals will gain hands-on experience with a solid scientific foundation for understanding plant science and the uniqueness of the Cannabaceae family. Upon completion, individuals will gain training in professionalism specific to the cannabis industry and will be prepared to enter the industry immediately as a budtender, plant propagation manager, retail, or the various ancillary businesses of the industry. Individuals will also have the opportunity to continue their educational pursuits into the Advanced Certificate in Cannabis Processing Technician and the Associates of Applied Science in Cannabis Studies.

Industry standards require students to be at least 21 years of age to work in a dispensary and other cannabis industry entities. Students may take coursework prior to turning 21, but should be aware that they will not be able to work in the cannabis industry until they are 21.
