

GENDER, WOMEN'S AND SEXUALITY STUDIES: STEM, HEALTH EQUITY, AND EMBODIED SOCIAL JUSTICE, ASSOCIATE IN SCIENCE

College(s): DA, HW*, KK*, MX, OH*, TR*, WR*

Program Code: 0210

Sample Transfer Pathway

Gender, Women's, and Sexuality Studies (GWSS) is a fascinating field that explores how people understand and express their identities. It looks at topics like gender, feminism, sexuality, and social justice, which have been part of human societies for a very long time. When you study GWSS, you'll learn about different ways people see themselves and others, and how these views have changed over time and across cultures. You'll explore the history of movements for equality and understand how people have worked to make society fairer for everyone.

One of the great things about GWSS is that it goes beyond the boundaries of other disciplines. You might study how gender and sexuality innovates with things like the environment, technology, healthcare, or even video games. This wide range of topics means that what you learn in GWSS can be useful in lots of different jobs. You could use your knowledge to become a lawyer or policymaker fighting for equal rights, a doctor who understands diverse patient needs, a teacher helping students find innovative solutions to the problems of the world around us, a gender doula supporting client's empowerment, or even a leader in a company making sure everyone is treated fairly.

GWSS is all about understanding people better and working towards a world where everyone is respected and valued. You'll learn how to think critically about social issues and come up with creative solutions to problems. If you're interested in learning about different identities and want to help create positive change in the world, GWSS could be a great

choice for you. It teaches important skills like empathy, critical thinking, and communication that can be useful in almost any career you choose.

This particular GWSS pathway offers a special concentration that focuses on STEM subjects, health equity, and embodied social justice. This means you'll learn about how gender feminism, sexuality, and social justice issues connect to science, technology, engineering, and math fields. You'll also study ways to make healthcare fairer for everyone and explore how social justice relates to our physical experiences and well-being. This unique focus can prepare you for careers that combine social awareness with scientific and health-related fields.

Semester-by-Semester Example Program Plan for Full-Time Students

All plans can be modified to fit the needs of part-time students by adding more semesters.

Semester 1	Hours
GWSS 101 Introduction to Gender, Women's, and Sexuality Studies 1,2,3	3
GWSS 103 Introduction to Social Justice 1,2,3	3
BIOLOGY 115 Human Biology ¹ or BIOLOGY 114 or General Education Biology	4
ENGLISH 101 Composition ¹	3
SPEECH 101 Fundamentals of Speech Communication	3
	16
Semester 2	Hours
GWSS 204 Pleasure Activism, Body Politics, and Translating Sexualities 1,2,3	3
GWSS 220 Queer Theory 1,2,3	3
BIOLOGY 119 Environmental Biology ¹	4
ENGLISH 102 Composition ¹	3

MATH 144	Finite Mathematics ¹	4	PHY SCI 107	Current Public Issues in Physical Science	3
